- Strap for Prescription Glasses
- Prescription Medication must be in original container
- Camera
- Journal/Letters to write home

\*Rain Gear must be top notch. We recommend buying high end jackets from companies like North Face, Patagonia, Mountain Hardware, or Equivalent.

\*\*Footwear is incredibly important. For the Summer Adventure Program each student should have quality hiking shoes, trail runners or lightweight boots mid to high cut. Gortex is not required in shoes/boots. Some acceptable brands are ASOLO, Merrel, OBOZ, and Vasque. If participants are bring boots, it is incredibly important that these boots be broken in before the trip. A good rule of thumb is that the boots should be worn 50-100 miles before the trip. This can be done out on trails or just around town.
