

To predict what your GPA will be after completion of courses in which you are now enrolled, using grades that you might expect to earn: Multiply the point value of the grade times the semesters of the course to get the quality points, then add the new hours to your completed credit hours, add the quality points to the quality points already on your transcript, and divide the total quality points by the total hours to produce cumulative GPA.

GRADE	POINT VALUE	Points for 3 semester hours	Points for 4 semester hours
A	4.00	$4.00 \times 3 = 12.00$	$4.00 \times 4 = 16.00$
A-	3.67	$3.67 \times 3 = 11.01$	$3.67 \times 4 = 14.68$
B+	3.33	$3.33 \times 3 = 9.99$	$3.33 \times 4 = 13.32$
B	3.00	$3.00 \times 3 = 9.00$	$3.00 \times 4 = 12.00$
B-	2.67	$2.67 \times 3 = 8.01$	$2.67 \times 4 = 10.68$
C+	2.33	$2.33 \times 3 = 6.99$	$2.33 \times 4 = 9.32$
C	2.00	$2.00 \times 3 = 6.00$	$2.00 \times 4 = 8.00$
C-	1.67	$1.67 \times 3 = 5.01$	$1.67 \times 4 = 6.68$
D+	1.33	$1.33 \times 3 = 3.99$	$1.33 \times 4 = 5.32$
D	1.00	$1.00 \times 3 = 3.00$	$1.00 \times 4 = 4.00$
D-	0.67	$0.67 \times 3 = 2.01$	$0.67 \times 4 = 2.68$
F	0.00 (Failure)	$0.00 \times 3 = 0.00$	$0.00 \times 4 = 0.00$

Other symbols used include:

W (Withdrew): Do not count hours or points

WF (Withdrew Failing): Count hours and points = 0.00

WP (Withdrew Passing): Do not count hours or points

P (Passing): Do not count hours or points

I (Incomplete): Must be replaced by a grade; converts to an F if not completed

S (Satisfactory): Do not count hours or points

Example:

Question:

What will my GPA be if I make a [B] in all of my courses this semester?

Answer:

Step 1:

GPA credit hours (from transcript):	101.00
Credit Hours Enrolled for this semester:	<u>15.00</u>
Total Hours:	116.00

Step 2:

Transcript Quality Points:	269.67
Add Quality Points for all B's (15 X 3.0)	<u>45.00</u>
Total Quality Points:	314.67

Step 3:

Divide Quality Points by Hours: $314.67/116 = 2.712$
