

## Core Curriculum Advising Checklist for Students entering Spring 2010

These courses are required of all first-year students entering Emory & Henry College beginning in Spring 2010. Depending on the number and type of hours college credit you transfer in, you may not be required to take ETLA 100—this will be handled on a case-by-case basis. In addition to these Core courses, students must complete the Lyceum requirement. This checklist is intended for guidance only; please consult the Academic Catalog for complete information.
