**SECOND MAJOR**

---

Please check the Emory & Henry College Catalog and consult with your advisor in choosing a double major. Double majors must plan carefully to be sure that all required courses in both majors can be completed in the expected time. Each major must include all core courses and a minimum of 8 courses specific to that major. A single course may not be counted as one of the 8 courses in both majors. Math and language requirements must be met for both majors. In majors that have the option of electing a minor in another discipline, the completion of another major completes the program and an additional minor is not required. Some majors require the completion of the Contextual and Support Area, and in the case of a double major, the required Contextual and Support Area will still have to be completed unless specifically waived by the Department.

**CONTEXTUAL SUPPORT AREA**

In most majors, you have the option of completing a minor in another discipline or completing the Contextual Support Area specified in the catalog for your major. A few majors require the completion of their Contextual Support Area. If your major requires you to complete the Contextual Support Area, you may still list a minor as an optional addition to your program. Some majors do not have Contextual Support Areas, and these require you to select a minor. Please check your catalog. By checking the box for this area you are informing the Registrar's Office that you will complete the Contextual Support Area for your major.
